Administrative

Bunker gear measurements are complete, and the order has been placed. It should take approximately 2 to 3 months before they arrive.

I met with our insurance representative and gave him a tour of our station.

I am going to get a quote for a new paint job for 1701. It has low mileage, and I don't foresee a new command rig in the budget anytime soon, since we will need to upgrade 1719 and 1712 sometime in the future.

Coming Up!

Island-wide scenario with "GET", hoping to confirm a date on October 16th, which is when the "Great Shake Out" is happening in Washington state.
